November 11-12 • 10 am - 4:30 pm
\$270 Members/\$300 Non-Members

Lana Ballott

During this workshop we'll explore how to avoid muddy tired colors in a pastel painting and make confident color choices whether you want to capture a bright sunny day or subtle atmospheric effects. The introduction demo will illustrate the specifics of color layering and underpainting techniques to create beautifully nuanced color, depth and texture.

In a series of exercises we'll explore how using different color characteristics we can improve the overall design, create more dynamic composition, make a stronger visual statement.

For a final work, students will have a choice of working from their own reference or using one of the provided photos.

All levels of experience are welcome.
A list of materials will be provided.
